Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

NEW REJECTIONS

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 - 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Komada (U.S. Patent Publication No. 2003/0044552A1).

With regard to Claims 1 – 2 and 4, Komada discloses a synthetic resin container (paragraph 0025) comprising a gas barrier film comprising a layer of silicon oxide (paragraph 0019) and a cover film comprising hexamethyldisiloxane (paragraph 0067), therefore on an outer surface of a body of the container, as disclosed in paragraph 0028 of the specification; the cover coating is therefore on the topmost side of the layer, and the coating has a contact angle with water of 80 degrees and the layers have a refractive index in a range of 1.3 to 1.6. With regard to the claimed aspect of the layer and film being formed by vapor deposition, the limitations are directed to process limitations and are therefore given little patentable weight.

With regard to Claims 3 and 5 – 8, the container disclosed by Komada comprises a coating layer (paragraph 0111); the container therefore comprises a base coating between the container body and the gas barrier film.

ANSWERS TO APPLICANT'S ARGUMENTS

3. Applicant's arguments regarding the 35 U.S.C. 102(b) rejection of Claims 1 – 5 as being anticipated by Komada (U.S. Patent Publication No. 2003/0044552A1), of record in the previous Action, have been carefully considered but have not been found to be persuasive for the reasons set forth below.

Applicant argues, on page 4 of the remarks dated September 5, 2008, that Komada does not disclose the claimed film refractive index.

However, Komada discloses a film comprising hexamethyldisiloxane, as disclosed in paragraph 0028 of the specification; it is therefore why the film disclosed by Komada does not possess the claimed refractive index. The rejection of the previous Action is reproduced above to specify that the specification discloses hexamethyldisiloxane.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc A Patterson whose telephone number is 571-272-1497. The examiner can normally be reached on Mon - Fri 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
